The response received 09 December 2004 has been made of record. Claims 1-24 are pending.

Claims 20, 21 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Dinter et al.

This rejection is maintained for reasons of record. Applicant's arguments have been considered but are not found to be persuasive. It is the position of the examiner that the rejected claims do not require a "direct" application of voltage to a molded product. The claims are to an apparatus. The instant apparatus comprises an electrode. The apparatus of the reference comprises an electrode.

Claims 22 and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-19 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
